PRC Case: #A2015-2

I live in Careywood, am a small business owner, and I have a Careywood PO box. I don't understand why our post office was closed. Careywood is a small town and we have had a post office for over 100 years. It's the only public place in the community, and brings folks together. It's damaging to our businesses and an inconvenience to our daily lives to close the post office.

I now need to travel over 20 miles to get my mail. This is over a mountain pass that gets very treacherous during the winter and significantly increases the risk of injury to me and my family.

The postmaster of the Careywood post office, Carrie, is amazing. Please re-open our post office!
